Number of beds:

129 Acute Bed Facility

Description of the site:

Penticton Regional Hospital acts as a referral centre to three community hospitals and one diagnostic centre in the South Okanagan and includes a regional population of 85,000.

It has an operating capacity of 129 acute beds and 102 extended care beds. A full range of services is provided with the exception of open heart surgery, neuro surgery and recent spinal cord injury care.

Penticton has the most attractive climate of all cities in Canada according to Environment Canada statistics. It offers all the amenities of larger urban centre yet maintains the charm and friendliness of a small community. It's a great place to work, live and do business.
